

SCHOOL STATEMENT

SUPERVISING PRINCIPAL WHITE SUBMITS REPORT TO BOARD

Supervising Principal Richardson D. White of Glendale City schools has prepared the following comprehensive statement to submit to the Board of Trustees, of the work of the schools the past year. The report contains much valuable information for the people of Glendale and should be preserved for reference.

Letter of Transmittal

To the Honorable Board of Trustees,
Glendale City School,
Glendale, Calif.

Ladies and Gentlemen:

I have the honor herewith to transmit to you my general report on the schools of Glendale for the year 1916-17.

For purposes of convenience I have divided this report into the following sections and subsections:

- (1) Generalizations
- (2) Elementary Schools
 - (a) Statistics
 - (b) Financial Statement
- (3) Kindergartens
 - (a) Statistics
 - (b) Financial Statement
- (4) Statement of Outstanding Bonded Debt
- (5) Valuation of Buildings and Grounds
- (6) Insurance
 - (a) Industrial
 - (b) Fire

I trust that the complete report as submitted may be of value to the Board of Trustees in dealing with future problems and to the people of the city as well.

I desire here to express to the members of the Board of Trustees, and to the principals and teachers, my appreciation of their hearty support and co-operation which have made possible the splendid school system which we have.

Respectfully submitted,
RICHARDSON D. WHITE,
Supervising Principal.

General Statement

During the year Glendale has maintained seven schools, employing forty-nine teachers and principals, and seven janitors. We have also maintained three kindergartens employing five teachers.

The Broadway, Columbus Ave., and Colorado Blvd. schools have all grades from the first to the sixth inclusive, and have maintained kindergartens.

The Central Ave. and Pacific Ave. Schools have had all grades from the first to the fourth inclusive, and a combined fifth and sixth grade room.

The Doran St. School has had grades one to three inclusive.

The Third St. (Intermediate) School has had only the seventh and eighth grades, and is the only school that has had these grades.

The administrative work of these schools is conducted as follows:

The supervising principal is principal of the Intermediate School. In addition there is a vice-principal of this school and each of the other schools has a principal.

The vice-principal of the Intermediate School and the principals of the other schools in addition to performing all of their administrative duties, teach full time just as any other teacher does. This system reduces the cost of administrative work to a minimum.

Comparing our school district to a business, we have here seven plants to maintain with a total of fifty-seven employees, and yet our total expense for the year has been only \$56,947, this total covering salaries, books (except state text books), supplies, operation expense and in fact everything except bonds and interest, which are items of investment and not of expense.

I give below a series of tables of statistics.

STATISTICS

Elementary Schools

Average Daily Attendance	
Intermediate School	261
Broadway School	176
Columbus Ave. School	225
Colorado Blvd. School	195
Central Ave. School	130
Pacific Ave. School	136
Doran St. School	54

Total Av. Daily Attendance.....1177

Enrollment by Schools

Intermediate School	276

DRAFT INFORMATION

ONE HUNDRED TWENTY-FIVE MEN TO BE CALLED FROM SEVENTH DISTRICT

F. D. Lanterman of La Canada, member of the exemption board of the Seventh Registration district, gave to the Evening News Thursday forenoon the following points of information:

First. 125 men is the quota required from the Seventh Exemption district.

Second. The total registration in this district was 1933.

Third. In this number are included many aliens who, according to law are not eligible to draft.

Fourth. The entire registration list, 1933 men, will be posted.

Fifth. The Board will take up for consideration, first, the first number drawn at Washington on July 20, which was No. 258. They will next consider the sixth number drawn at Washington, which is 458. The numbers between the first drawing, 258, and the sixth, 458, are all higher numbers than any included in Exemption District No. 7. The next number to be considered is the eleventh drawn at Washington, which is 1436, the numbers drawn between the sixth and eleventh being higher than any registered in the Seventh District. The next number considered is 854, which was the 14th drawn. In this way the board will continue until they obtain 125 men who are eligible for service and have no cause for exemption.

Sixth. The Board will mail notices this evening to the first 250 drawn. It is Mr. Lanterman's opinion that the Board will be ready by Monday to listen to exemption claims and have physicians conduct physical examinations.

CERRITOS AVE. P.-T. A.

The Cerritos avenue P.-T. A. will hold its regular meeting Friday, August 3, 2:30 p. m. The practice of parliamentary usage will be conducted by the parliamentary chairman, Mrs. Harry Greenwalt. This is very interesting and affords much merriment. The program will be most interesting.

Mr. Raymond Dunlop of the Juvenile Court is the speaker for the day and all who have heard him know the treat in store for those attending. His subject is: "Use your head; have a heart; lend a hand."

Miss Mae Ramsay will do fancy dancing. Mrs. Winona Crawford is the soloist.

The object of the P.-T. A. is to study the welfare of the child in home, school and community, and create a better mutual understanding between parents and teachers and secure their co-operation in all work for the interests of the children. Any one interested in the purpose for which the association is organized is qualified for attendance. All welcome.

RECEPTION TO ENLISTED MEN

Rev. T. F. McCrea of the Glendale Chapter of the American Red Cross, formerly connected with Red Cross work in China, where he was a missionary, will give a talk tonight at the reception to be given by Glendale Chapter at the home of Mr. and Mrs. A. M. Beamon, in honor of Glendale's enlisted men. This affair is open to all who wish to show by their presence their appreciation of the patriotism which inspired those of Glendale's sons who have offered their services and their lives if need be to their country. May these young men be made to feel tonight that their home city is not ungrateful or unmindful of the serious step they have taken and the sacrifices they have made and will make. Mrs. H. E. Bartlett, chairman of the reception committee, has made plans and enlisted assistants who will help make this event one upon which the boys in whose honor it is held, will look back with pleasure.

The captain and the first and second lieutenants of the 21st company Coast Artillery, will be present.

Mrs. Beamon, who is chairman of comfort bags of the local Red Cross chapter, will present a comfort bag to each of the soldier boys present.

Those in charge of the affair wish it understood that the public is invited and there is no charge.

DEATH OF BABY THERIAULT

Paul Theriault, infant son of Mr. and Mrs. William Theriault, 236 S. Louise, passed away July 31 at the age of 5 months and 26 days. Services were held from the parlors of the Jewel City Undertaking company August 2, at 9 a. m., Father O'Neill officiating. Interment was in Forest Lawn cemetery.

ALLIED CONQUESTS BOTHER KAISER

BIG CONFERENCE OF MILITARY LEADERS HAS BEEN CALLED TO DISCUSS RECENT LOSSES

(Special Service to Glendale Evening News)

AMSTERDAM, August 2.—The Kaiser is worried by the great Allied achievements on the west front and has called a war conference in Berlin. Hindenburg, Ludendorff, the crown prince and many other military leaders will attend.

ITALY DISPLEASED AT ALLIES

WANTS UNITED STATES TO DECLARE WAR ON AUSTRIA AND ASSIST IN ITALIAN OFFENSIVE

(Special Service to Glendale Evening News)

WASHINGTON, August 2.—Italy is displeased at her failure to get from the Allies, particularly America, supplies she says she needs which could swerve the war balance. This is apparently causing a delicate diplomatic situation. Italy is insisting the United States declare war on Austria. She is also claiming that the Italian offensive aided by the United States would insure victory by Christmas. The United States says this is impossible.

BRITISH GAINS NEAR YPRES

SMASH BACK GERMAN DEFENSES IN FACE OF SEVERE RESISTANCE AND RETAKE LOST TERRITORY

(Special Service to Glendale Evening News)

LONDON, August 2.—The British smashed back German defenses and retook positions in the neighborhood of the Ypres-Roulers railway where the German troops resisted Haig's advance. The resumption of the Allies' drive through Flanders awaits the hot sun to dry up a veritable sea of mud which is blocking the movement of artillery and troops.

MANY CASUALTIES AMONG WOMEN SOLDIERS

ONLY FIFTY-FIVE IN RUSSIAN "LEGION OF DEATH" COME UNSCATHED THROUGH BATTLE FIRE

(Special Service to Glendale Evening News)

PETROGRAD, August 2.—Only fifty-five out of an entire battalion of Russia's "Legion of Death" came unscathed from the battlefield. Those who are wounded are going back to the front when they recover, Mme. Botchknezia announced this afternoon in a hospital.

EMBARGO ON IRON AND STEEL

PRESIDENT FORBIDS EXPORTATION OF IRON EXCEPT SUCH AS IS NEEDED FOR WAR PURPOSES

(Special Service to Glendale Evening News)

WASHINGTON, August 2.—The president forbids the exportation of iron, steel plate, pig iron, and iron and steel scraps, except such as the Allies need for actual war purposes.

SECOND LIBERTY LOAN CALLED

THREE BILLION DOLLAR WAR BONDS TO BE ISSUED FIFTEENTH OF COMING NOVEMBER

(Special Service to Glendale Evening News)

WASHINGTON, August 2.—The second liberty loan for three billion dollars is to be launched November 15. Before that time it is planned to issue a billion in the treasury in order that short time certificates may meet immediate needs.

HEAT WAVE CONTINUES

(Special Service to Glendale Evening News)

NEW YORK, August 2.—Total heat deaths have mounted to over 500 and prostrations have trebled that figure as a result of the heat wave that is holding the east and midwest in its grip since Monday. The temperature is well up in the nineties.

JOHN HAYS HAMMOND SUNK

(Special Service to Glendale Evening News)

LONDON, August 2.—The sinking of the American steamer John Hays Hammond by a German U-boat was reported by the admiralty to-day. The entire crew was saved.

BAKER DENIES RUMOR

(Special Service to Glendale Evening News)

WASHINGTON, August 2.—Secretary Baker denies the rumor that disaster befell American forces at sea.

HAPPENINGS IN STATE

LIBERTY BONDS CAUSE A DECREASE IN STATE BANK DEPOSITS

SAN FRANCISCO, August 2.—Withdrawal of funds to pay for Liberty bonds is given as the reason for a \$14,800,000 decrease in total national bank deposits of the eight reserve cities of this federal reserve district, according to the review of business conditions issued today by the Twelfth Federal Reserve Bank. The decrease is for the period of May 1 to June 20. National bank deposits in Los Angeles decreased \$3,200,000 and in San Francisco \$9,400,000. The statement adds that when deposits from other banks are excluded from the figures, however, San Francisco and Los Angeles show increases of about \$1,000,000 each.

Passing from financial conditions to the crop situation, the review says that damage estimated as high as 75 per cent. was done to the Southern California naval orange crop by the extreme heat wave which reached as high as 116 degrees. Damage to Valencia oranges is estimated at from 50 to 60 per cent. and to lemons at 25 per cent. Beans, olives and walnuts also suffered. There is a silver lining to this cloud, however, for the reserve banks officials find that the previous prediction of large increases in general crops over last year's yield in the entire district, is confirmed. It points out that the government estimates the total potato crop for the twelfth district at 44,000,000 bushels against 32,000,000 last year and California's barley crop of 1,000,000 tons is double that of last year. The California prune crop is estimated at 200,000,000.

SACRAMENTO, Cal., August 2.—Capital crimes which carry the death penalty are on the decrease in California or else juries trying offenders are opposed to capital punishment and recommend life imprisonment. This conclusion is drawn from the fact that only three men are occupying condemned cells in the state prisons—two at San Quentin and one at Folsom—and that only one execution has taken place so far this year. Joseph Wilt was executed in February for murdering a man in Glenn county. In previous years the condemned cells of the two state prisons have been well filled, ten or twelve men usually waiting to pay the extreme penalty. Fred Miller, sentenced to death for a murder in Ventura and Lon Hadley, convicted of murder in Los Angeles, both colored, are awaiting execution in San Quentin prison. Miller is to be hanged on August 17 and Hadley will be executed on September 7. Joseph Schoon, who is occupying the condemned cell at Folsom penitentiary, was convicted for murder in Stockton. Execution has been stayed in his case through an appeal to the supreme court.

SACRAMENTO, Aug. 2.—Ten thousand copies of the revised constitution of the State of California have just been printed and are ready for distribution. The revised constitution was prepared by Arthur P. Will, chief of the legislative counsel bureau, by direction of the last legislature. To the constitution is appended a summary of the constitutional amendments, the magna charta, declaration of rights, declaration of independence, the articles of confederation and the constitution of the United States. Will is now preparing a complete index of the constitution and of all the laws of the state, including those enacted by the last legislature.

GOOD IDEA

Yesterday while paying up his dues to the Glendale Chamber of Commerce, A. G. Spohr, the popular druggist, made this good suggestion:

It is known that many auto parties pass through different parts of Glendale without coming into the principal business sections along Brand boulevard or down Broadway.

His good idea is that attractive signs should be set up and maintained by the City, or if need be by private subscription, directing passersby to the business sections.

Note. Will not other good citizens, while paying up their dues and taking membership in the Glendale Chamber of Commerce, make some good suggestion for the betterment of our city?

The Glendale Chamber of Commerce will give due publicity to any such suggestion and do what it can to make the suggestion effective. Who'll be the next? But if you can't think of the good idea right off the bat, why not do your duty by the Chamber of Commerce anyhow, and maybe the Lord will reward you with the good idea later.

Secretary G. C. C.

FIELD ARTILLERY

TO BE RECRUITED BEFORE FRIDAY NOON

With a second class of 755,700 men to be called to the colors within the next 10 days, according to the order published by General Crowder on Tuesday, literally hundreds of additional Southern California men will be drafted within the next three weeks. This is in addition to the first class of 687,000 men already called.

At the same time it is announced that medical students and men serving in Red Cross ambulance companies will have no valid claims for exemption from the draft, and that agricultural workers and munition factory workers also will be greatly restricted as to exemption.

With this information at hand word was received at the Recruiting Headquarters of the California Field Artillery Regiment, 749 South Spring street, that two additional batteries would be recruited at once, and that men enlisting in this arm of the service before the second army is called would be exempt from the second draft. This regiment will be mustered into the federal service on Friday and no enlistments can be received after noon to-morrow.

At the same time it was announced that men listed for the first draft could not now be accepted in this regiment, and that the men of the first draft would have to take their service in whatever arm of the service they might be assigned to.

In a formal statement issued by the Recruiting Officer of the California Artillery Regiment, appears the following statement:

"With the receipt of the draft cards for the first army, we have been ordered to cease the enlistment of men subject to the first draft, but we can still accept men subject to call for the second army."

THE MILITARY DANCE

Aside from the wide publicity given to the military dance by the Evening News, the attention of all interested is called to a very attractive poster drawn by Miss Elsie Church of 221 South Orange street, Glendale, advertising the military dance to be held in Masonic Temple Saturday night.

The artist was graduated from Glendale Union High School in 1914; and from the Normal School in 1916. Since last February she has been teaching in the Columbus Avenue Grammar School.

Her artistic poster may be seen in the Chamber of Commerce window. It beautifully utilizes a noted Red Cross picture from the cover of a late copy of the Ladies Home Journal.

Among the ladies who are taking especial interest in the military dance are many of the most popular and socially active in Glendale.

A part of the personal equation in the dance proposition is the fact that possibly a few of the very soldier or sailor boys who attend and take prominent place in the festivities may be included among the sick or wounded somewhere in France, Belgium or Germany. They may be saved from death by the very money provided for the Red Cross at this entertainment. There is no telling what particular good your two bits or four bits may help to accomplish. In any event, when you spend it, whether for ticket to the dance or for the satisfying refreshment of ice cream and cake between dances, why not send a good wish with it, that it may bring comfort to some brave fellow suffering on the battle field or in ambulance or hospital. Don't miss this dance!

W. L. C.

LIGHT ADJUSTMENT CONTINUES

The free adjustment of motor headlights still continues at the Monarch Co.'s automobile accessory store, 421 South Brand boulevard. Last evening Mr. Butts and City Marshal Laurence were busy until a late hour handing out certificates of adjustment to auto owners, many of whom waited patiently in line for several hours until their turn came. In almost every instance a change in adjustment of the bulbs and lamps was the means of a marked improvement in the headlights.

I. O. G. T. INSTALLATION

Glendale Lodge No. 46 I. O. G. T. will hold an open installation to-morrow evening, August 3rd, at the I. O. O. F. hall, corner of 3rd and Isabel. There will be a musical program and a pie social afterwards. Everybody is invited, the only request being that every lady bring a home-made pie.

GLENDALE, CALIFORNIA, THURSDAY, AUGUST 2, 1917

SHAME UPON SENATORS PHELAN AND LEWIS

Senators Phelan of California and Lewis of Illinois were two of 12 democrats out of a total number of 48 democrats in the Senate who voted against nation-wide prohibition Wednesday. Johnson of California and Sherman of Illinois, both republicans, voted for the measure.

In the face of present conditions on the temperance question, it would appear that Phelan and Lewis have put themselves beyond any possible chance for re-election, and out of touch with the masses of the people. The vote in the Senate stood 65 for nation-wide prohibition and 20 against it. Thirty-six democrats and 29 republicans voted for the measure; 12 democrats and 8 republicans voted against it. Good, old reliable Senator Cummins of Iowa voted for nation-wide prohibition. Penrose of Pennsylvania, who has been often questioned as to his genuineness of heart on important questions, voted against it. Shame upon Phelan and Lewis.

The world war that is upon us may be the cause of the loss of many lives, but the battles will be fought for a purpose. The liquor traffic has caused the loss of more lives than will ever be caused by the war that is now being waged, and in the face of all this, and in the face of the great effort now being made to cut down the useless expense caused by the use of alcoholic drinks, Phelan and Lewis and the eighteen other Senators took a very unpopular and unreasonable stand on this national question.

THE CHANGING WORLD

The world wherein the right of the individual to profit was paramount to the right of society to fair prices was blown up with the Austrian grand duke three years ago.

We are entering a new heaven and a new earth. The world will never again be what it was in 1914. Individual rights, which rose to their highwater mark as a result of the philosophy of the eighteenth century, are passing; social rights are rising. The right of society to share to the fullest extent in the good things of this earth is a right which will be recognized more and more as the world whirls round the sun. Men working in a commonwealth will come more nearly sharing the common wealth according to their labor and their talents than before. One hundred and forty years ago America abolished caste. That took the feet of the hereditary hog out of the trough; now the world is about to abolish special privilege—the privilege of capital to take toll of society in arbitrarily high prices.

These are grand and awful times. They presage a new era, when a more nearly approximate justice will reign in the earth than ever we have known before.—California Outlook.

NEW ERA IN RAILROADING

Frequently in recent months we have alluded to the electrifying of the Milwaukee's transcontinental line over the Cascade mountains, because it seems to mark an epoch in railroading, and President Earling has pioneered in an entirely new direction in the matter of transportation. But here are some figures that are not less than amazing, and they tell the story of impending changes in every railroad that can command electric power.

The Milwaukee has electrified 450 miles of its line from Avery, Idaho, and has under construction electric installation from Avery to Seattle, 500 miles more.

Against a cost of \$1,750,000 for coal from its own mines to operate the 450 miles, by electricity it costs \$550,000 a year, and on top of this one-third of the equipment of the road was used to haul coal.

The Butte, Anaconda and Pacific railroad pays \$96,000 a year for electric power to operate 80 miles of railroad as against \$270,000 a year for coal for the same line, doing a bigger business.

The problem is not to get the railroads to use electric power but to get capital to develop the power plants.

A reduction of from \$1, 750,000 to \$500,000 and from \$270,000 to \$96,000, in cost of power produced is certain to get a hearing with other railroad executives, and while the item is not referred to here, it would seem inevitable that the cost of repairs and shop work on steam locomotives is more than on electrically driven motors.

SOME FINANCIAL FACTS

Do you realize that in three years since the beginning of the war your share of the money in circulation in this country has risen from \$34.50 to \$45.86.

That is just what has happened. The per capita wealth of the nation has increased \$11.51 during the war as the federal reserve bulletin shows that the total money in circulation has grown in this period from \$3,480,000,000 to \$4,742,000,000.

To meet the needs of the business developed by the war, it was necessary to provide increased circulating media. This is the reflection of the prosperity of the nation.

One of the features of the monetary situation that is of pecu-

The Glendale Evening News should be delivered at your home by the carrier not later than 4:30 p. m. every day except Sunday, and usually much earlier than that time. Subscribers who have not received their paper at 4:30 o'clock, should notify the office by phone: Glendale 132, Home 2401.

liar importance is the rapid and steady rise in the price of silver. For the first time in many years the white metal has passed 80 cents an ounce and there is no indication that the top has been reached.

The advance in silver is explained in London by the demand for the metal in China because of war time activity and rising prices and a falling off in production in most of the silver producing countries.

As long as the war lasts and possibly for a considerable time afterwards the commercial activity in China will continue and there will be increased demand for silver in consequence.

Certainly the situation is encouraging to the people of Nevada, California and other silver producing districts of the west.—Sacramento Union.

THE BOYS ARE SIGNIFICANT CHARACTERS

The young men who less than a year ago were snubbed in business and not considered to be sufficiently mature to be depended upon have been asked to step forth and perform the important task of saving the world from the grasp of a monarchy that threatens to conquer the world. The task is a hard one and places a wonderful responsibility on the shoulders of men from 21 to 30 years of age. The boy who 8 years ago was wearing knee trousers is to-day dressed in military uniform with musket in hand, ready to take a place on the firing line. The kid who was in the way of traffic on the streets, interested in a game of marbles, six years ago is now in France obeying General Pershing's orders.

WAS YOUR GARDEN CROP A FAILURE?

Was your back-yard vegetable garden a failure this year? None the less, this year's work is likely to have improved the soil so much that next year's vegetables will be a success. Such is the word of encouragement for the amateur gardener which has come to the Committee on Resources and Food Supply of the California State Council of Defense from the University of California College of Agriculture.

The reason for many of this year's failures, according to W. F. Gericke, Assistant Professor of Soil Chemistry in the University of California, was that the soil planted to vegetables had often not been plowed or cultivated for years. In consequence, the soil was in poor physical condition and quickly grew hard and dry, but this year's spading and working over and this year's fertilization will result in better tilth next year.

To-day is not too early to plan for next year's crop. Now is the time to improve the soil. Aeration and fallowing and this year's tillage will help to bring abundant results for next year's labor.

LA CANADA

After four weeks' construction work at the Linda Vista training camp, Edwin Cooper, who joined the Quarter Masters' Reserve Corps, has been transferred from bakery Co. 20 to the quartermasters department. Upon arriving in Linda Vista, Cooper was assigned to bakery Co. 20 on account of immediate need in that particular department. At odd times he was assigned cabinet work for the quartermaster. Being particularly adapted to that kind of work, Cooper asked to be transferred permanently to the quartermasters department. Although this change may not be permanent, Cooper believes there is sufficient work for several months.

A performance never known to have been staged before an American audience is the feature program for the next Improvement Association on the night of August 18, in the auditorium. Although entirely novel in its intent, this affair will be supported by strictly local talent. A few of the principal names will be published next week.

Mr. Edwards H. Brooks, president of the La Canada Improvement Association, a former pastor in Los Angeles, and at one time secretary of the Minister's Union of Los Angeles and vicinity, will give a carefully prepared address in Blanchard Hall, Los Angeles, on Sunday morning at eleven o'clock, before the Church of the People, upon invitation of its minister, Mr. Reynold E. Blight. The subject will be "A Defective Religion, the Real Cause of the War and the Unhappy State of Things on Earth." By request Mr. Brooks spoke before the Church of the People over a year ago. The audience was so thoroughly pleased with his talk that Mr. Blight secured him for one Sunday during his own vacation. Mr. Brooks would be pleased if any La Canada people found it possible to attend.

Sermon Brief

Exodus 25:40, "See that thou make them after the pattern that hath been shown thee in the mount." When man wants to build an airship, he studies God's eagle. When he wants to build a submarine, he studies God's pickerel. When he wants to build a noble character, he studies God's son.

God did not ask Adam to shape the beasts; he asked him only to name them. He did not ask Noah to paint the rainbow, he asked him only to study it. He does not ask us to do as we think best; he asks us to "hear His Son."

There are firth bells near Cambridge, England, that announce the noon hour as determined by the observations of the sun. Every watch is adjusted by the announcement if the man that carries the watch wishes to be on time. The watch may be set in a gold case, its posts may be set in jewels; but it must be adjusted to the sun.

God furnishes the pattern for every man's character. He says to every person, "See that thou make thy life according to the pattern that hath been shown thee." "This is my beloved son, hear him. I am well

pleased with His life. Look at Him." It is not enough that we are told that "God is love." We must know what love is. The department of the Interior at Washington requires a pattern of every invention. It is not sufficient that the inventor furnish a description of his invention, he must present a pattern. Words mean what we make them mean. The pattern is its own interpretation.

General Pershing says to his soldiers in Europe, "You represent your country by what you are. Be noble, be pure, be brave," Europe can understand your lives better than your language.

It was a compliment to those that he was presumed to be capable of appreciating God's pattern shown him in the mount. The beaver and the bee cannot appreciate a pattern. They have no imagination, they have only instinct. The original Greek word for man means "looking up." The fire-fly determines the direction of its flight by the flash of its own wing. Man is equipped with a power to see the pattern made by God. The spirit of man is the candle of the Lord; if he will look up he will see God's pattern. This pattern is of universal application. The Creator made of one blood all nations. He has made one pattern for all nations. He has not left it to man to invent a life-size portrait of God. We are made in His image. He has visualized Himself in His "only begotten Son." When He articulated the pattern in speech, he said, "Thou shalt love thy neighbor as thyself." Then he furnished a pattern of this love by His loving sacrifice and service. His sceptre of dominion is the cross upon which He died. His symbol of service is the towel with which he was girded. This assures us that the banker's daughter and the blacksmith's daughter will be on an equal footing at the "Marriage supper of the Lamb." Location, position, does not weaken the claim of this pattern. The pattern of patriotism of Gen. Pershing's soldiers in the trenches is the pattern for American citizens in the home and in the counting room. The pattern prevents treason in the trenches and selfishness in the town.

This divine pattern comes from the mount. Moses did not carry his thoughts of justice up to God; he brought God's thoughts of justice down to man. Mountains support live electric wires of high voltage. This high voltage light drives darkness out of our homes and stagnation out of our machinery. The world is paying a high price for its low voltage and low patterns of living. Selfishness is suicidal. In the recoil from this human pattern, there comes a popular wave for the pattern given by the Apostle.

At Strasburg there is a big clock said to be capable of running 999 years without re-winding. Every time this clock strikes the hour of twelve, the twelve Apostles make their appearance. There may be darkness at periods of the world's history, but when the clock in the belfry dome of the universe strikes God's hour, the twelve Apostles of the Lamb will come forth to declare that God has not forgotten His own.

JEWELERS TO HAVE PLATINUM

In order to conserve the supply of platinum, for which Uncle Sam may have great need in prosecution of war, the jewelers' vigilance committee issued an appeal to the jewelry trade of the country to discontinue the use of the metal wherever possible. The committee asked all manufacturing and retail jewelers in the country to discourage the manufacture and sale of platinum in all bulky and heavy pieces of jewelry where it is not essential, and where gold will serve satisfactorily. The committee urged the jewelry trade to encourage the use of gold in combination with platinum wherever artistic results may be obtained by such a combination.

Personals

Mrs. May V. Kenyon and son, Ralph, of Tucson, Arizona, were recent visitors at the home of Mrs. Elliott, 1753 Oak street.

J. J. Davis of 900 Damasco Court, who has been ill for a few weeks, in company with Mrs. Davis, is taking a much needed rest at Long Beach.

Mrs. Frederick A. Clark and her sister, Mrs. Evans, of Los Angeles, were Saturday afternoon guests of Mrs. F. W. Griggs on Oak street. On Sunday Mr. and Mrs. Griggs entertained Mr. George Van Horn and family of Van Nuys.

Mr. and Mrs. Olin Spencer of 1537 West Broadway, left Thursday morning of this week by auto for Berkeley, California, to which place they go to get their daughter who has been teaching in a summer school in that city.

Dr. and Mrs. E. H. Willisford and daughters, Carol and Joy, are spending two weeks in Los Angeles. They are just resting, but will make a few brief trips to the beaches. Mr. J. D. Ashbaugh, Mrs. Willisford's father, is at the Willisford home, 129 S. Kenwood and Dr. Willisford can be reached through him if needed.

C. D. Kinsley, M. D., Physician and Surgeon, has opened an office at 343 South Brand boulevard, Room 20, for general practice. Dr. Kinsley until 1913 was in practice in North Adams, Mass., since which time until recently he has been surgeon on board one of the steamships plying between San Francisco and Hong Kong.

Miss Veta Franklin, daughter of J. H. Franklin, 200 South Central avenue, has been appointed supervisor of Home Economics in the Long Beach public school system, including the high and elementary schools. Miss Franklin succeeds Miss Grace Schermerhorn who has been selected as the head of the Home Economics Department of the public school system of New York, the premier position of this character in the United States. Miss Franklin has the B. S. degree and diploma in Household Arts from Columbia University of New York City.

A WORTHY VULCANIZING PLANT

The J. L. Grose Vulcanizing plant at 1011 West Broadway, Glendale, is building up a worthy enterprise, and now gives employment to five persons, three in the mechanical department and two in the office. Mr. Grose is a practical tire man, and believes in doing first class work at all times. He has already installed considerable new machinery and he has ordered much more to be installed as soon as it can be shipped from factories in the east. Mr. Grose has been drawing trade from Los Angeles, Hollywood and even as far distant as Riverside. (Such an institution is a good thing for the community.)

ANNUAL STATEMENT

Prof. R. D. White, supervising principal of schools of the Glendale City School District, has kindly furnished the Evening News with a very comprehensive annual report of the schools under his supervision. This report should not only be read by the taxpayers and patrons of the schools, but in addition to its being carefully read this copy of the paper containing it should be filed away for future reference. The report will be found on page one of this issue of the Evening News.

JAPANESE RAISE PRICE

The Tropic-Glendale Japanese Day Work association from this date will charge \$2.40 per day of 8 hours and \$1.25 for half day, or 35 cents per hour for shorter time. This raise has been made necessary on account of the increase in price of food products. 278t24*

GLENDALE PUBLICITY

Walt, Le Noir Church, Secy. G. C. C. All who are familiar with the facts know that within the last four or five months Glendale has been widely and favorably advertised along sundry unusual channels, and that the usual harvest from efficient advertising will come in due season, part of which is now. The cost has been very small indeed and was paid by the Glendale Chamber of Commerce. You personally know whether you have contributed anything to Glendale's Chamber of Commerce, during 1917 or for a long time previously. Several times lately good citizens have incidentally spoken of being members of the Glendale Chamber of Commerce, but the cash book shows no evidence that they have paid anything in dues or otherwise during the administration of the present management.

Why not? Your Chamber of Commerce either helps or hurts Glendale. If it is helpful, don't be a slacker but help support it.

If the Chamber of Commerce hurts Glendale, start a movement to suppress it.

To be "a perfectly good citizen," it is up to you to do one thing or the other. Is it not? Honest Injun, now—is it not? Do you need to be "dunned" to pay what you admit you ought to pay?

Next week there will be, also through your Chamber of Commerce, a lot of extra fine advertisement for Glendale along one of the very best lines.

Many Glendallians know of Roger Andrews, some time president of the Los Angeles Rotary Club, and always a good fellow, with legions of friends. He lives at Menominee, Michigan, and is now publisher of a widely circulated and most highly appreciated periodical, made illustrious in connection with the world-known \$2,500.00 "Popularity Contest." Two of the most popular representatives of that most popular "Clover Land Magazine" will arrive in Glendale next week and be entertained at the Glendale Chamber of Commerce, perhaps elsewhere in Glendale. They will be guests of the Salt Lake Route and will be escorted by Mr. C. A. Redmond, District Passenger Agent for that popular carrier which has done so much to advertise Glendale. They are Mary Rowe of Winnetka, Michigan, and Maym Rick of Menominee, Mich. They are graphically writing up the story of their eventful trip to this coast and they are looking forward with especial pleasure to seeing Glendale, the most beautiful of all California home cities, as they have been credibly informed by that perfectly good Glendallian, C. A. Redmond.

Glendale is an especial favorite with the Salt Lake Route. Glendallians know how Glendale was advertised in the Arrowhead Magazine in its Preparedness Train issue, shortly after that great university-on-wheels spent that most memorable day in Glendale, the last Saturday in last May.

LUTHER

"The Monk Who Moved the World"

Sunday night at the Lutheran church, Cor. 5th and Maryland, promises to be an extraordinary night. At 7:45, the Congregational people are uniting with the Lutherans in a celebration of the 400th Anniversary of the Protestant Reformation. And we invite any other congregation in Glendale that desires to come and join in the celebration. Will accommodate all who come. Rev. Mottern has given this lecture in various parts of California with marked success and interest. He has made a careful study of these things and makes them interesting. Not a dry moment. 70 very fine and rare pictures. All Protestants are interested in this lecture, so all are most cordially invited. Our Catholic friends are also welcome. Let the parents bring their children for the good it will do them. Talk the matter up. Let us make it a worthy celebration. Congregations having no evening services especially take note of this invitation.

GLASSELL PARK DANCE

The Glassell Park Auxiliary of the Red Cross is going to give a benefit on the evening of August 11th. It is to be a masquerade dance in the open air. We are to have the best of music and a good floor. We will sell ice cream cones, pop corn, peanuts and home made candies and will charge five cents for each dance. Drive down the San Fernando Road to Elliott Place, thence three blocks east to Avenue 33. Or take the car to Eagle Rock City and from there take Los Angeles car to Avenue 33 and walk to top of the hill.

MRS. C. B. LANG, Chairman, 2956 West Avenue 33.

CARD OF THANKS

We wish to express our sincere gratitude to the kind friends who extended aid and sympathy to us at the time of our bereavement.

MRS. M. P. PETERSEN,
MISS CECILIA PETERSEN.

SPIRITUAL CHURCH

The Harmonial Spiritual church of Glendale meets at the home of Mrs. E. Z. Barnett, 502 W. Ninth street, every Thursday evening at 8 o'clock. Everybody welcome. tt-Wed.

FRENCH CLASS TO AID RED CROSS

A class for adult beginners in French will be started early next week. All money received from the pupils will be divided between the American Red Cross and the British Ambulance Associations of Glendale. The class will be held weekly at the home of Mrs. H. E. Bartlett, 101 Brand Blvd. Instruction fees will be 25 cents per lesson; a straight course of ten lessons must be paid for in advance. The French taught will be conversational, concerning every day objects and everyday life. Eating, buying goods, meeting friends, travelling in train and by automobile, clothes, scenery, etc; not a strictly school of French, but calculated to assist travellers with simple, ordinary, agreeable conversation. French poems will be learned, French songs sung, and even games will be played in order to induce a facility in speaking.

This afternoon class of adults must consist of not less than 10 and not more than 20 pupils. The instructor will be Mrs. Nanno Woods, to whom all applications should be made. Phone Sunset Glen. 394.

EASILY EXEMPTED

Any young man who can equal this for ailments will surely be allowed to go to a sanitarium instead of being taken to a training camp:

A Slacker of the Sixties

The "Nasby Letters," written by D. R. Loske, were part of the nation's steady literary diet during the Civil war. Here is an extract from one bearing date of August 6, 1862.

"Petroleum V. Nasby" voiced his opinion of the Lincoln draft in the following fashion:

"I see in the papers last nite that the government hez instituted a draft and that in a few weeks sum hundreds uv thousands uv peaceable citizens will be dragged to the tented field. I know not what others may do, but ez for me, I can't go. Upon a rigid eggsaminishun uv my fizzle-kle man, I find it wood be wus than madnis for me to undertake a campagne, to-wit:

"I'm bald headed, anr hev bin obliged to wear a wig these 22 years. 'I hev dandruff in wat scanty hair still hangs 'round my venerable temples.

"I hev a kronic katarr. 'I hev lost, since Stanton's order to draft, the use uv vun eye entirely and hev kronic inflammashen in the other.

"My teeth is all unsound, my palit aint eggsactly rite, and I have had bronkeetis 31 years last Joon. At present I hev a koff, the paroxisms uv wich is friteful to behold.

"I'm holler-chestid, am short-winded and hev alluz hed pains in my back and sides.

"I'm afflicted with verrykose vases, hev a white-swellin' on vun leg and a fever sore on the uther; also vun leg is shorter that tother, though I handle it so expert that nobody notices it.

"I hev korns and bunyons on both feet, wich wood prevent me from marchin'.

"I don't suppose that my political opinions, wich are against the pro-ssekushun uv this unconstitooshnel war, wood hev any wate with a draftin officer; but the above reasons why I can't go will, I make no doubt, be suffishent."—Epworth Herald.

CARRY YOUR OWN

Quite a little attention is being given to the need of the conservation of men as well as resources now that the country is demanding so much of its people and its supplies, and a splendid article along this line was printed in the Commercial Bulletin a few days ago.

Especial attention was called to the great waste of time and energy which is occasioned by the delivery system, and it was suggested that the following slogans be displayed in all grocery stores:

Don't Have It Sent
If You Can Carry It Home
Your Country Needs the Men and Money Now Being Wasted in Needless Delivery of Goods.
Be Patriotic,
Carry Your Own.
"Lighten Your Country's Burden By Carrying Your Own."
Millions of Dollars and Thousands of Men Are Tied Up by Needless Delivery of Goods.
These Men and This Money Can Be Released for Vital Service if You Will Help.
It Is Patriotic to Carry Home All Possible Parcels.
Begin Today.

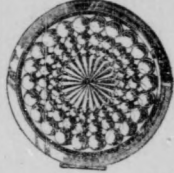

"The words: 'This sign is displayed at the request of the Commercial Economy Board of the Council of National Defense' may be placed upon such a sign in case any dealer hesitates to take the step on his own initiative for fear of possibly antagonizing his customers.

DEATH OF M. P. PETERSEN

Mr. M. P. Petersen of 415 E. 2nd St., for 11 years a resident of this city, passed away July 26th after an illness of about two years. His death resulted from heart failure. He was born in Denmark, being at the time of his death, 50 years of age, and leaves to mourn his loss, a widow and one daughter, Cecilia. Interment was in Forest Lawn cemetery, Monday afternoon.

LEGALIZE YOUR HEADLIGHTS WITH WARNER-LENZ

The WARNER-LENZ complies with every traffic law, and has been approved by the Los Angeles Police Department. 450,000 motorists and the makers of eight famous cars endorse this all-revealing light, and have made it standard equipment. Some lights are permitted in one place and barred in another. The WARNER-LENZ is legal EVERYWHERE—a mighty valuable point when touring. You have double protection with WARNER-LENZ—your own safety and compliance with all laws.

176 LENSES IN ONE

WARNER-LENZ utilizes ALL your light, but it diffuses the rays—insuring a wealth of soft, clear, penetrating illumination. WARNER-LENZ is the same in every position. Neither the turning or twisting of the lens in the rim of the lamp, nor the angle of the car to the road, affect it.

Get your WARNER-LENZ today, from your dealer, or write

SAN FRANCISCO, August 2.—

Conscientious objectors of all types are putting furrows into the brow of Leo. S. Murasky, attorney, at the draft legal aid bureau. A Russian came to Murasky's office in the city hall to-day. "I'm a Russian and a follower of Tolstoi," he told Murasky. "Like Tolstoi I believe in non-resistance. I fled from Russia hoping to find that I could follow my beliefs in America. Now, if I refuse to be drafted will I be sent to jail?" "You surely will," was Murasky's answer. The Russian hesitated a moment. "M-mm. I also am a follower of Count Troubetskoy, and, like him, I'm a vegetarian. Can I be served vegetables in jail?" Murasky told him he better see the jailer and

the Russian left to investigate jail conditions. Next came a Hindu who explained he was of the Brahmin faith. The Brahmin believes in caring for the wives of dead brothers. "I have no dependent wife of my own, but, according to my faith the bond in my case is just as strong for the wife of my dead brother is dependent upon me," the Hindu explained. Murasky admitted it was a new one on him but could find nothing in the rules that exempted the Brahmin.

"You can't judge a man by his clothes."

"Not always, but the uniform helps some in distinguishing a soldier from a slacker."—Washington Star.

ELECTION PROCLAMATION

Notice Is Hereby Given to the qualified electors of the district hereinafter described, situated in the County of Los Angeles, State of California, that an election will be held in said district upon the 11th day of August, 1917, for the purpose of determining whether a public highway lighting district shall be formed, to be designated by the name and under the style of Verdugo Lighting District of the County of Los Angeles, with boundaries as follows:

Beginning at the intersection of the northeasterly line of the right of way of the Pacific Electric Railway Company (Glendale-Burbank Line), with the northwesterly line of Lot 4, Block 109, Subdivision of the Rancho Providencia and Scott Tract, as shown on map recorded in Book 43 page 47 et seq., Miscellaneous Records of Los Angeles County; thence northeasterly along the northwesterly line of said Lot 4, Block 109, to the southwesterly line of Sixth Street, as shown on said map of the Subdivision of the Rancho Providencia and Scott Tract; thence northwesterly along the southwesterly line of said Sixth Street to the southwesterly prolongation of the northwesterly line of Lot 2, Block 110, said Subdivision of the Rancho Providencia and Scott Tract; thence northeasterly along said prolongation and northwesterly line of Lot 2, Block 110, to the southwesterly line of Eighth Street, as shown on said map of the Subdivision of the Rancho Providencia and Scott Tract; thence northwesterly along the southwesterly line of said Eighth Street to the southwesterly prolongation of the northwesterly line of Lot 1, said Block 110; thence northeasterly along said prolongation and northwesterly line of said Lot 1, Block 110, a distance of 560 feet; thence northwesterly parallel to the southwesterly line of Tenth Street, as shown on said map of the Subdivision of the Rancho Providencia and Scott Tract, to the northwesterly line of Lot 4, Block 111, said Subdivision of the Rancho Providencia and Scott Tract; thence northeasterly along the northwesterly line of said Lot 4, Block 111, to the southwesterly line of Tenth Street, aforesaid; thence northwesterly along the southwesterly line of said Tenth Street, to the southwesterly prolongation of the northwesterly line of Lot 3, Block 122, said Subdivision of the Rancho Providencia and Scott Tract; thence northeasterly along said prolongation and northwesterly line of said Lot 3, Block 122, to the westerly prolongation of the southerly line of the first parcel of land described in deed to Dan Campbell, recorded in Book 4021 page 296 of Deeds, Records of said County; thence easterly along said prolongation and southerly line, and northerly along the easterly line of said first parcel of land described in deed to Dan Campbell, to the southwesterly line of the V. Beaudry's Mountains, as shown on map recorded in Book 35 page 67 et seq., Miscellaneous Records of said County; thence southeasterly along the southwesterly line of said V. Beaudry's Mountains, and the northeasterly line of the Baugh Tract, as shown on map recorded in Book 9 page 23, Miscellaneous Records of said County, and the northerly line of the Glendale Boulevard Tract, as shown on map recorded in Map Book 6 page 184, Records of said County, to the northeast corner of Lot 1, Block 25, said Glendale Boulevard Tract, being on the westerly boundary line of the City of Glendale; thence in a general southerly and westerly direction, following the various courses of the present boundary line of the City of Glendale, and continuing northwesterly along the northeasterly line of the right of way of the Pacific Electric Railway Company (Glendale-Burbank Line) to the easterly line of Grand View Avenue, as described in Road Book 17 page 144, in the office of the Board of Supervisors of said Los Angeles County; thence

A COW OWNED BY THE STATE
YIELDS 94 LBS. OF BUTTERFAT

The State of California is a good farmer. A grade Holstein in the dairy herd of the Napa State hospital produced 93.76 lbs. of butterfat during June, in the State Dairy Cow Competition being conducted by the University of California.

The average production of the cows in this University competition during June was 1176 pounds of milk and 48.36 pounds of butterfat (the average distance from calving being 113 days). The production ranged from 19.40 to 93.76 lbs. of butterfat. The Napa State Hospital cow with the latter record won the McAllister & Sons' prize for the month of May. For June this prize was won by a Humboldt county dairyman, G. E. Trigg of Ferndale, one of his grade Jerseys having produced 80.46 pounds of butterfat. Two other grades which produced 93.76 and 86.82 pounds respectively were debarred from competition because of having won this prize once before.

Another Humboldt county dairyman, J. W. Coppini of Ferndale, President of the State Jersey Breeders' Association, won the Pacific Rural Press prize for June, since five grades in his herd produced 67.297 pounds of butterfat, the highest for the month. This makes the second time this prize has gone to Humboldt county. Mr. Trigg having won it last April for an average production of 82.37 pounds of fat for five grade Jerseys.

The pure-bred cows in this University competition are making excellent records—three Holsteins and three Guernseys produced over 80 pounds of butterfat (equivalent to nearly a hundred pounds of butter) each during the month, in spite of the fact that most of them had been in milk several months. The University reports that the showing the grade cows in the competition are making is very remarkable, and that it affords striking evidence of how the wealth of the dairymen of California can be increased by grading up their dairy cows, through the use of purebred bulls, of an ancestry with a high record of milk production.

WHAT SHOULD OUR CHILDREN READ?

When a child refuses to go to school or to work, is disobedient and listless, there is something wrong. A child brought up with the right kind of books as companions will love his school and his books.

Children are natural imitators. They will very soon learn to talk and act as their companions on the street do. Or, if their leisure time is mostly spent with books, their thoughts will dwell on what they read about. And as a child thinketh so he is. His sole aim will soon be to emulate the deeds and character that are foremost in his thoughts.

If taken while young a child's likes and dislikes can be educated in almost any direction; and good reading is a great help in making good children. A true story or a narrative of deeds that a human being might have done, history and tales of travel will linger in a child's mind and inspire him to be honest, noble and truthful; to honor and obey his parents and teachers and to love his school and companions.

With a little planning by the mother, home may be made the place to be preferred above all other places by the children, especially at night.

Reading aloud and telling the best they can what has happened during the day, should be encouraged in the children. Teachers will tell you there is a noticeable difference between scholars who have books and papers to read at home and those who have not.
